<><><>

Reference has been received from one of the unit and GS/WREU for clarification whether letter issued vide this office letter dated 01/09/2021 has retrospective effect or otherwise.

In this regard it is advised to take action on the 'principle' laid down in this office letter dated 31.5.2021. Suitable modifications should be made in training programme of LDCE selected candidates already under training, with the consultation of Principal/officer concerned so that their seniority is not affected due to the curtailment of training of subsequent batches.

This issues with the approval of Competent Authority.

Sub: Revised Training Modules of Non-gazetted staff of Electrical Traction department

Ref: Railway Board's letter No. E(MPP)2019/3/44 dated 27/01/2020

(RBE No. 10/2020) / PS No. 12/2020

<><><>

Attention is invited to Railway Board's letter No E(MPP)2019/3/44 Dt. 27/01/2020 (RBE No. 10/2020) circulated vide PS No. 12/2020 dated 11/02/2020. Initial Training Course for Apprentice Technicians (Non-ITI) of all trades was for 156 weeks according to Training Module of 2005. However, it has now been reduced to 78 weeks vide RBE No. 10/2020.

Candidates who had been sent under training for 3 years prior to issue of revised training module will complete the training after the completion of training of fresh candidates and seniority of the candidates will be affected accordingly.

To avoid this anomaly, it is hereby advised to modify the training of 156 weeks in consultation with Principal/Concerned officers of training centres to ensure that staff sent for the batch sent for training earlier for 156 weeks should complete their training before those who have sent for 78 weeks training.

This issues with the approval of Competent Authority (PCEE).
